### **The Hunt:**

We are offering a bespoke 7-day moose and bird hunting adventure in the vast wilderness of the Lapland Mountains. This hunting adventure is unique because of its exclusive location deep in the vast wilderness of the Pärälvens nature preserve. No one expect for the Samee people, and the landowners has hunted moose in this legendary area before. This is the natural gathering place for the mountain moose where two small river valleys end up in a delta downstream the camp, a perfect spot to call in the big bulls.

This adventure will also include a traditional stalk hunt for capercaillie in the age-old pine forest around the Camp. We will use a special trained hunting dog called Finnish-Spitz that works independent and holding the birds at bay. Our base camp is one of Swedish Lapland's few well-preserved mountain farms.

The Camp is beautifully situated in the forests of the Pärälvens Nature Preserve on the shore of a stunning lake. Well back from the hunting day, we serve selected Tapas & Drinks in the wood heated sauna, a guaranteed highlight of the day. In the evening, we will gather for dinner in the country kitchen, where we cook local food- haute cuisine from Swedish Lapland and pairing great French & Italien wines...
